
LONGENECKER and ASSOCIATES

Ramesh Maraj, PMP

DETAILED EXPERIENCE

- 2002 – Present DOE: Senior Consultant providing support to the \$1B EWGPP Program and its projects through Tech-Source, Inc. (TSI). Major focus areas include design, construction, and commissioning of fossil-fuel power plants and program and project reviews.
- 1995-2002 DOE: Technical advisor for BDM/Northrop Grumman on a \$200M per year program to develop and demonstrate over 50 innovative technologies for handling, treating, and storing radioactive, hazardous, and toxic wastes throughout the DOE complex.
- 1990-1995 Corps of Engineers and FEMA: Program Manager for URS, Inc., on a \$200M contract for the design, replacement, and remediation of over 50 oil storage facilities.
- 1985-1990 EPA: Project Manager for Jacobs Engineering on nation-wide program to develop treatment standards for hazardous wastes from the oil and gas, chemical, and pharmaceutical industries.
- 1976-1983 Steel and Petrochemical Industries in Trinidad: Deputy Project Manager for the National Energy Corporation on a \$200M 1200 tons per day methanol plant. Senior Project Engineer/Project Manager for a \$400M integrated steel complex.
- 1972- 1976 Oil Refinery: Project Engineer on a 300,000 barrels per day Texaco oil refinery in Trinidad and Tobago.

EDUCATION

- MBA, The Wharton School, University of Pennsylvania (1985)
- Graduate studies in Engineering, Leeds University, Leeds, England (1972)
- B.Sc., Chemical Engineering, University of the West Indies, St. Augustine, Trinidad and Tobago (1971)
- Project Management courses at Doe and Government Institutes

EDUCATION

- Outstanding Service Award, President's Commission on Critical Infrastructure Protection (1997)
- Excellence Awards, BDM (1996, 1997)
- President's Award, Jacobs Engineering Group (1988)
