President, Wilton Road, LLC (2008 – Present)

Provide business consulting services on government contracts, principally Office of Environmental Management and National Nuclear Security Administration (NNSA) contracts. Clients include Energy Solutions, Honeywell, IBM, Jacobs Engineering, Wackenhut Services, Inc. and Pro2Serve.

Serve on the Board of Directors of Pro2Serve and Overly Door Company.

General Counsel, Chief Operating Officer (2001 - 2008)
NNSA, Washington, DC

Worked with the NNSA Administrator to establish the re-engineered NNSA structure of sites and service center, done over time without layoffs and serious disruption to NNSA mission.

As the Source Evaluation Board Chairman for the Los Alamos National Laboratory (LANL) competition and as the Source Selection Authority for the Lawrence Livermore National Laboratory competition worked to design contract models to reflect the GOCO concept, updated for the 21st century realities.

Together with Dr. Triay, negotiated the clean up agreement with the New Mexico Environment Department for LANL, foregoing a finding of imminent and substantial endangerment by the New Mexico Environment Department.

Developed the concept of contractor assurance systems and more effective federal oversight; using those systems, lead development of the Kansas City Pilot to utilize commercial standards, increase productivity, reduce cost and render more effective federal oversight of work at the Kansas City Plant. Led the internal process of working through DOE offices of primary interest to obtain buy-in or refer to the Deputy Secretary for resolution.

Chief Counsel, Acting Deputy Manager, Acting Area Office Manager (LANL),

Albuquerque Operations (1994 - 2001), Albuquerque, New Mexico

Provided day-to-day legal services in support of the Kansas City and Pantex Plants, LANL and Sandia National Laboratories.

Partnered with OGC in defense of the state hazardous waste permit for WIPP and the defense of the litigation whose goal was to prevent WIPP from receiving waste; WIPP opened after some 20 years of trying.

Worked with local management to end DOE operations at the Pinellas Plant and transition the plant to the private sector (on-site employment now exceeds cold war employment).

Conceived and negotiated the “privatization” of the Inhalation Toxicology Research Laboratory from a traditional M&O contract to a private laboratory run by Lovelace Respiratory Research Institute. Final land transfers should occur shortly. Employment and revenue now exceed DOE levels.

Served as site manager for what is now the Los Alamos Site Office from March, 1998 through July, 1998. To promote self-sufficiency for Los Alamos County transferred three fire stations, leased the water production facilities and acquired a utility easement across San Ildefonso lands to assure the supply of electricity to LANL and the County. Maintained sovereign to sovereign relationships with Santa Clara, San Ildefonso, Cochiti and Jemez Pueblos.

In 2000, represented NNSA on the Multi-agency Fire Investigation Team following the Cerro Grande wildland fire.

Chief Counsel, Oak Ridge (OR) Operations (1985 - 1994) Oak Ridge, Tennessee

Provided full range of legal services to OR Reservation (Y-12, Oak Ridge National Laboratory and East Tennessee Technology Park), Jefferson Laboratory, the Portsmouth and Paducah Gaseous Diffusion Plants, the Fernald Plant and the Weldon Springs clean-up site.

Negotiated the clean up agreements for the OR Reservation, the Fernald Plant and the Portsmouth Gaseous Diffusion Plant.

Negotiated the contract for the design, construction and commissioning of Jefferson Laboratory.

Senior Counsel, Project Management Office (1977 -1985)
Strategic Petroleum Reserve
New Orleans, Louisiana

Supported, with full range of legal services, the acquisition, design, construction and operation of the current SPR sites and negotiated country-to-country petroleum purchase agreements with Petroleos Mexicanos.
